Procurement: Vendor Management, RFQ/RFP, Procurement SOPs, Purchase Orders, Contracting & PECC approvals, Cost control, Vendor risk & performance, MIS reporting

Tools & Systems: ERP (Oracle, Odoo, SAP MM — foundational), Excel Dashboards (pivots, formulas), Lean, JIT, E-commerce ops & MS Office

Markets: Local & International (EU/UK/AU/CANADA) — e-commerce channels

Experience

Senior Assistant Manager — Product Supply Chain

Utopia Industries · Karachi · Sep 2024–Present

- End-to-end demand and replenishment planning for 100+ SKUs across EU/UK/AU/Canada, maintaining consistent in-stock performance through weekly forecast and PO cadence.
- Reduced stockout risk by 24% by refining reorder points + safety stock using lead-time buffers and sales velocity signals.
- Reduced excess inventory exposure by 17% by managing days-of-cover targets and adjusting buy quantities around seasonality and promotional uplift.
- Improved supplier/inbound reliability to 92% OTIF via structured PO tracking, supplier follow-ups, and escalation on delayed shipments.
- Improved forecast accuracy to 83% (weekly) by integrating seasonality, promotion calendar, and exception-based overrides for fast movers.
- Reduced emergency replenishment cycles by 24% through early risk flags (low cover / inbound delays) and proactive replenishment actions.
- Improved reporting turnaround time by 38% by building Excel dashboards for inventory health, PO status, and replenishment risk flags.

Assistant Manager — Supply Chain

Confiance Co (Pet Mania) · Karachi · Nov 2023– Sep 2024

- Reduced channel-level stock imbalance by 42% by aligning replenishment with demand signals, seasonality, and safety stock triggers.
- Reduced slow-moving accumulation by 27% through ABC/FSN segmentation and buy discipline for low-velocity SKUs.
- Reduced inventory variance/adjustments by 18% through tighter reconciliation, root-cause tracking, and month-end close controls.
- Improved inventory turnover by 14% via refined reorder discipline and sell-through monitoring.
- Reduced procurement processing time by 15% through streamlined RFQ/RFP documentation flow and SOP alignment.
- Reduced manual MIS effort by 34% by improving Excel trackers and reporting templates.

Project Coordinator — Procurement & Warehouse Operations

Faysal Bank · Karachi · May 2023–Nov 2023 (Contract)

- Reduced approval rework loops by 18% by standardizing vendor comparison sheets and improving procurement documentation quality.
- Achieved 7% cost optimization on office supplies and IT categories through comparative quoting and supplier benchmarking support.
- Improved requisition-to-issue cycle time by 10% via coordinated workflow between users, procurement, and stores.

Procurement Coordinator

Bank Alfalah · Karachi · Jan 2023–May 2023 (Contract)

- Delivered 12% cost optimization on recurring buys through RFQs, multi-vendor comparisons, and quote benchmarking.
- Reduced PO turnaround time by 15% by tightening documentation flow and vendor follow-ups.
- Reduced tracking gaps by 20% by improving MIS visibility for procurement status, vendor documentation, and approvals.

Deputy Assistant Director — Operations

NADRA · Karachi · Feb 2022–Dec 2022 (Contract)

- Achieved 11% cost reduction on selected facility operations spends through localized sourcing and comparative analysis within policy limits.
- Reduced vendor follow-up escalations by 20% by improving SLA tracking and operational coordination.
- Reduced missing-document incidents by ~30% by strengthening record structure and compliance readiness.

Supply Chain Executive

Urban Edible Pvt. Ltd · Karachi · Jun 2021–Jan 2022

- Reduced supply disruption incidents by 18% through improved reorder planning, PO follow-ups, and supplier coordination.
- Achieved 6% price improvement on recurring procurement through vendor comparisons and price tracking discipline.

Supply Chain Intern

ITT Foods Pvt. Ltd · Karachi · Dec 2020–Apr 2021 (Final-Year Project)

- Identified 12% waste reduction potential across key supply chain process areas through structured FMCG waste analysis and recommendations.
- Improved management visibility and prioritization by converting findings into actionable improvement areas with measurable impact potential.
